

JAN KINČL & REGIS KATTIE

Two Sides of Blue Funk

Blue Funk originally is a remix of the song *Get It Off* by New Jersey house legend **Kerri Chandler** which through live gigs turned into a completely new song leaving only vocals as a link with Kerri's original. Single is taken from the recent ***In Plain Sight*** full-length so it could be presented through new versions, remixes and covers as a two-sided musical spectrum in which **Jan** and **Regis** dwell and to be named ***Two Sides Of Blue Funk***.

Electronic side contains **Blue Funk**, the original album version and the remix by Detroit house producer **Javonntte** and **Jan Kinčl**. Jazz side contains the version called **Funk Bleu** which guests esteemed musicians **Krunoslav Levačić**, **Davor Križić** and **Luka Veselinović**, including the live version by **Janko Novoselić's** ensemble **The Cuban Space Program** with backing musicians **Hrvoje Rupčić**, **Hrvoje Galler** and **Zvonimir Šestak**. Song was recorded during their first ever public appearance. Techno / house DJ and producer **Jan Kinčl** and French jazz pianist **Regis Kattie** take their influences from house, jazz, acid and techno music, and by combining these genres a debut album ***In Plain Sight*** was released for PDV Records in 2018.

It came out with great acceptance, reviews and praises from world famous names such as **Laurent Garnier**, **Alex Barck** (Jazzanova), **Volcov**, **DJ Nobu**, **Tony Humphries**, **Lefto** or **Kai Alce**.
